

Tester.io — Placeholder & Dead Element Audit

Source: <http://localhost:3000/> · Generated: 2026-05-29

Summary: The three .html page links (TesterTech.html, Sights.html, product.html) all exist and load real, distinct pages — they are **not** broken. All six nav anchors (#platform, #workflow, etc.) resolve to real on-page sections. The genuinely non-functional items are in the footer, the logo, the mobile menu toggle, and a set of decorative chips.

1. Dead links and buttons (href="#" / no destination)

Visible text	Location	Current href	Likely intended page
Tester.io (logo)	Header / nav	#	index.html (home)
Platform	Footer — Product	#	#platform or platform.html
Workflow	Footer — Product	#	#workflow or workflow.html
Reports	Footer — Product	#	#reports or reports.html
Pricing	Footer — Product	#	#pricing or pricing.html
Changelog	Footer — Product	#	changelog.html
Manifesto	Footer — Company	#	manifesto.html
Careers	Footer — Company	#	careers.html
Customers	Footer — Company	#	customers.html
Press	Footer — Company	#	press.html
Contact	Footer — Company	#	contact.html (or #contact)
Privacy	Footer — Legal & Status	#	privacy.html
Terms	Footer — Legal & Status	#	terms.html
Security	Footer — Legal & Status	#	security.html
DPA	Footer — Legal & Status	#	dpa.html
Status page	Footer — Legal & Status	#	status.html
Privacy	Footer — bottom bar	#	privacy.html
Terms	Footer — bottom bar	#	terms.html
Status	Fo	🌟 Claude is active in this tab group 🗨️ ✕	

Dead-link subtotal: 19

Non-functional / stub buttons

Visible text	Location	Issue
Toggle menu (hamburger)	Header / nav	button with no onclick / no JS listener — mobile menu does not open
Get Started	Bottom "Ship faster" CTA form	onsubmit only runs event.preventDefault(); no destination or network call
Send message →	Contact section form	Calls submitForm(event); handler not fully verified — confirm it actually sends

Button subtotal: 2–3

2. Broken or missing page links

None found.

Link text	Location	href	Status
TesterTech	Header nav + Products card	TesterTech.html	exists (200)
Adventure	Header nav	Sights.html	exists (200)
View product →	Products section (Watch Pro card)	product.html	exists (200)

3. Design-only placeholders (look interactive, but aren't links/buttons)

Visible text	Location	Notes
View pipeline	02 / Velocity section	Static text styled as a button
Configure	02 / Velocity section	Static text styled as a button
Export	03 / Reports & Coverage	Static text styled as a button
Schedule	03 / Reports & Coverage	Static text styled as a button
In development	Products — Ring card	Static status badge
In development	Products — Hub card	Static status badge
Available / Coming 2026	Products — each card	Static status badges
Plan / Author / Build / Verify / Ship / Monitor	07 / Lifecycle section	Visual stage labels, not interactive

Placeholder subtotal: ~8 distinct chin/badae tyves

Totals

- Dead links (href="#"): **19**
- Stub/non-functional buttons: **2 confirmed** (Toggle menu, Get Started) + 1 to verify (Send message)
- Broken page links: **0**
- Design-only placeholders: **~8 distinct elements**
- Total broken / non-functional / placeholder elements: **~29–30**

Missing page filenames to create (inferred from footer labels)

```
changelog.html  
manifesto.html  
careers.html  
customers.html  
press.html  
contact.html  
privacy.html  
terms.html  
security.html  
dpa.html  
status.html  
pricing.html  
platform.html  
workflow.html  
reports.html
```

Note: Platform / Workflow / Reports / Pricing already exist as on-page sections (#platform, #workflow, #reports, #pricing), so those footer links could be repointed to anchors instead of new pages.
